

GALVESTON FEARS GERMS OF DISEASE

**Festering Corpses Likely to
Originate the Worst
Kind of Fevers.**

DEAD MAY REACH 6,000

**Country Districts Strewn With
Bodies too Decomposed to
Admit of Burial.**

BUSINESS IS BEING RESUMED

Galveston, Sept. 15. (Special Telegram)—Efforts to minimize the danger of pestilence is the principal feature in the rehabilitation of Galveston now. Clean up is the order of the day. Bodies human and otherwise are rapidly being disposed of but the stagnant water contains the disease germs in sufficient quantities to originate the worst kind of fevers. Ten thousand barrels of lime can be used to good advantage.

Rebuilding the City
The rebuilding of the city is the topic discussed almost exclusively among business men committees having been given the duty of looking after the dead. By actual count four thousand corpses have been handled and a long stretch of debris along the beach and western portion of the island has not yet been heard from, and the prairie of the main land over which the waters rushed have yet their tales to tell. It is thought on a conservative estimate that the total figures will reach six thousand.

More Troops Arrive Today
Additional troops arrived today to replace those wearied by long vigils and arduous duties.

A bulletin from Hitchcock says the country districts are strewn with corpses and bodies too badly decomposed to handle and the water is too deep to admit of burial.

Country Districts Suffering

Austin, Tex., Sept. 15.—Relief committees from Galveston, Velasco and other points along the gulf called on Governor Sawyer today asking him for immediate assistance. Fifty thousand people in the devastated district are in need of food, clothing and money. The governor assured the committee that everything possible would be done. He sent out several hundred thousand pounds of bacon and flour to various points, with the promise that more would follow daily. Need of cash for or the relief work is still great.

Clara Barton on the Way

New Orleans, La., Sept. 15. (Special Telegram).—Clara Barton and staff arrived here this morning enroute to Galveston to distribute aid.

Towns Completely Wiped Out.

Austin, Tex., Sept. 15.—[Special Telegram]—Gov. Sawyer this morning sent \$150,000 to Galveston for sanitary purposes. Reports from the coast country show an awful condition of the people. Towns of 200 to 2,000 people are completely wiped out. Galveston will be under military rule for a week or ten days.

THE SITUATION AT GALVESTON

Storekeepers Make Needed Repairs and Open Business

Austin, Tex., Sept. 15.—Relief committees from Galveston, Velasco and other points along the gulf called on Governor Sawyer, asking him for immediate assistance. Fifty thousand people in the devastated district are in need of food, clothing and money. The governor assured the committee that everything possible would be done. He sent out several hundred thousand pounds of bacon and flour to various points, with the promise that more would follow daily. Need of cash for the relief work is still great.

A more hopeful feeling is observable everywhere and the situation is brightening rapidly. Water has been turned on and sewers and closets flooded. The downtown part of the city is being rapidly cleaned of debris and filth and gutters and streets disinfected. Buildings are being cleaned and floors scrubbed. Damaged stocks are being removed and aired. Carts are going through the streets sprinkling lime and a solution of carbolic acid and disinfecting dead and decaying matter. All is being done with military precision, thanks to martial law. State Health Officer Blount expressed belief that there is no danger of epidemic from conditions resulting from the storm. Emergency hospitals have been established in each ward for treatment of the sick and wounded. The Ursuline convent has been converted into a

great general hospital for the reception and care of more serious patients, with a full corps of physicians and trained nurses. All public and private hospitals are filled to their capacity with sufferers.

"In thirty days you will not know it is the same city," said John Sealy, chairman of the Finance Committee. "We have sent over the state for 1,000 carpenters, 1,000 additional masons, and artisans of all kinds."

"Galveston will rise greater and better than ever. This is what we desire to impress upon our good friends of the North and East."

Conservative estimates now place the loss of human life at about six thousand.

FUND NOW \$1,000,000.

Money Pouring in from All Sections of the Country.

Austin, Tex., Sept. 15.—The fund for the relief of the Galveston sufferers now aggregates nearly \$1,000,000; and it will probably reach \$1,500,000 in a day or two. Most of this amount is in the hands of Governor Sayers, who will direct the work of spending it for food, supplies, and other relief measures, just as it may be needed. The governor will not give out for publication an itemized list of the contributions for several days. Governor Sayers announces that at least \$1,500,000 will be required for relief work. Ten thousand persons in Galveston are absolutely destitute and many thousands more nearly so.

Montana to Raise Big Fund.

Helena, Mont., Sept. 15.—Montana will raise a big fund for the relief of the Galveston sufferers. Mayor Edwards of Helena has been delegated treasurer. A local paper has already secured several thousand dollars from the first day's appeal, and it is expected that \$40,000 or \$50,000 will be raised.

LOAN TO GERMANY MADE IN GOTHAM

**The Kaiser Borrows \$20,000,000 in
America—New York City Gets
the Biggest Slice.**

New York, Sept. 15.—The rising leadership of the United States in the world's money market was again emphasized today when President James Stillman of the National City Bank, confirmed the report that the German government would float a loan of 80,000,000 marks, or \$20,000,000, through the City Bank and Kuhn, Loeb & Co.

The report was also confirmed by cable messages from Berlin received in Wall street, and at 1:30 Kohn, Loeb & Co. issued a statement in regard to the German loan. The statement said that there was no syndicate and that preference in allotments would be given to American subscriptions.

The loan will be made at 4 per cent and will be represented by treasury bonds of the German Empire, falling due in 1904.

STATE FAIR WAS A BIG SUCCESS

TOTAL NET EARNINGS ARE ESTIMATED AT \$8,000.

Double Attraction on the Last Day Yesterday—Makes the Event a Permanent Fixture in Milwaukee—Uffendell's Feat in the Athletic Games—Some More Details.

Milwaukee Sept. 15.—The State fair closed yesterday afternoon with the patrons good-natured, exhibitors satisfied and managers jubilant. From every standpoint the project has been a success, and those who have worked so hard to make the undertaking creditable in its results, feel that they have accomplished all that they could reasonably have expected.

About \$8,000 to the Good

About \$8,000 is the figure at which both chairman, President McKerrow and Secretary True place their estimates of profits, though the exact amount will not be known for several days, when all accounts have been settled and premiums paid. On the other hand it is doubtful, they say, if the amount exceeds this sum, though all of the members of the State Board of Agriculture express themselves as thoroughly satisfied with that as it is.

They have given the public, they believe a far better line of attractions, all things considered, than have ever before been offered at a Wisconsin State fair, and in consequence they have enjoyed a patronage both from Milwaukee itself and from other cities of the state, such as the fair deserved. It will at least assure the fair as a permanent fixture, and will preclude all possibility of the grounds being sold and the big agricultural show moved to another city.

Double Attraction Yesterday
The attendance on the closing day, for which the double attraction of an excellent racing card and a big athletic meet was offered, was hardly as large as expected, for it is estimated that it scarcely exceeded 7,000 or 8,000 people in all. Although the patronage on the closing day is invariably small, it was thought that the special attraction would result in a large crowd.

The events as far as the horse racing was concerned was highly satisfactory, but the athletic features though followed with a good deal of interest, were in some respects disappointing.

Won't Work Together

In fact, it was generally conceded at the close of the program that the experiment of combining horse events with athletics was hardly a success, as each tends to interfere with the satisfactory work of the other. The main difficulty with the athletic meet was that many of the contestants promised, failed to appear, and in consequence many of the events were somewhat tame; though on the other hand the time made was as a rule satisfactory, the chief feature being the clipping of a second off the Western record for the 380 yard run, W. O. Uffendell doing this in 1:58 4-5. There was also some dissatisfaction because the necessity of alternating with the regular racing program led to rather vexatious delays.

WON BY AMERICAN CYCLISTS

Paris Race of Nations Goes to Cooper, McFarland and Banker.

Paris, Sept. 15.—The grand race of the nations, one of the leading events of the cycling carnival at Vincennes, was won by America. Great Britain, Germany, Italy, Austria, Belgium, France and Holland also competed, each country being represented by three men. Cooper, McFarland and Banker constituted the American team. The distance was 1,500 meters and the purse \$5,000 francs, divided into individual prizes. In the preliminary heat America defeated Belgium by 8 points to 13, and in the semi-final heat America won from Italy by the same score.

Oshkosh Has 23,284.

BRYAN WILL STUMP THE BADGER STATE

**SCHEDULED FOR A SPEECH IN
JANESVILLE THIS MONTH.**

Pitchfork Tillman of South Carolina Will Also Do Missionary Work in Wisconsin—Senator Quarles Says This State is Safe for McKinley—Crowds Greet Seth Low.

Milwaukee, Sept. 15.—Bryan has not given up the idea that there is a chance to do a little missionary work in Wisconsin this year and according to a democratic authority he will spend a week of his time in this state the latter part of this month.

Chairman Jones summoned Secretary Noel to Chicago today to assist in fixing up a route for the Nebraskaan. Milwaukee democrats say it is the intention to use a train in Wisconsin and most of the speeches will be delivered from a coach platform or from flat cars on side tracks, as was done in 1896 by the 16 to 1 candidate.

To Speak in Janesville.

Every night, it is said, he will speak in a city, including La Crosse, Oshkosh, Eau Claire, Janesville, Madison and Racine, cutting out Milwaukee, because he has been here. During the day he will travel slowly over some of the railroad lines, speaking at small stations.

The democrats are trying hard to find German-Americans to make speeches in this state, and they actually believe that there is to be a landslide of German-American republican votes to the Bryan ticket on the question of "imperialism."

Tillman Will Invade Wisconsin

The democratic national committee has selected Senator Tillman of South Carolina as the orator with whom to invade Wisconsin. Whether the plan is to keep him out of harm's way by sending him to a republican state is not stated, but he is billed to speak at Racine next Monday, Kenosha or Sheboygan on Tuesday, Appleton on Wednesday, Milwaukee on Thursday, and Jefferson on Friday.

Great Crowd Greet Seth Low

A splendid audience of nearly 2,000 people crowded the West Side Turn hall last night to hear President Seth Low of Columbia college, New York, open the republican campaign in Milwaukee in a polished and convincing speech. The large audience was extremely enthusiastic and applauded the points made by the speaker with a degree of vigor not frequently witnessed in this city. President Low was in fine voice, and his delivery, persuasive rather than oratorical, was smooth and pleasing.

Wisconsin Safe for McKinley.

Senator Quarles says that there is no reason for doubting that Wisconsin will give McKinley and Roosevelt its electoral vote in November. "Of course the 102,000 majority the republicans got in 1896 was abnormal," said Senator Quarles, "and there may be a falling off but the state is safely republican. The campaign was opened at La Crosse with the greatest meeting ever held there. Some of the German democrats and gold democrats are going back to their party for individual reasons but there is no general defection among either class. Besides the republicans will gain enough democratic votes to offset these losses. Imperialism is not a winning issue in Wisconsin."

STORM TAKES FOURTEEN LIVES

Tall End of Great Gale Causing Havoc in Newfoundland.

St. John's, N. G., Sept. 15.—Tales of widespread destruction wrought by Thursday's gale continue to pour in. Six vessels were wrecked near St. Pierre and six in Placentia Bay.

Thus far fourteen lives are known to have been lost and it is feared that the loss of life will prove to have been much greater when full information is at hand.

M'KINLEY IS THE FAVORITE

Election Odds in New York Are 3 to 1 on His Election

New York, Sept. 15.—Election odds, which have been ruling for a month or so at 2 1/2 to one in favor of McKinley, changed temporarily to 3 to 1. At this ratio Louis W. Wormser bet \$24,000 to \$3,000 with J. J. Judge today. Later he bet \$22,000 to \$10,000 and \$10,000 to \$4,000 with Bell & Co. Mr. Wormser still has a large amount to place on his favorite candidate at 3 to 1.

John O'Keefe of H. L. Horton & Co. announced today that he had \$2,500 to bet against \$1,000 of Bryan money.

HURRICANE IN NORTHWEST

Severe Wind and Rain Storm in North Dakota and Manitoba

Grand Forks, N. D., Sept. 15.—The storm of yesterday, which amounted to nothing here but a heavy rainfall, covered a vast area. In some localities the wind reached the velocity of sixty miles an hour. Between Pembina and Winnipeg the storm was the heaviest of the season and the corn crop was leveled to the earth as well as the flax still uncut. At the government weather station at Pembina it was reported that the wind reached a velocity of sixty miles and the storm there and on farther was a hurricane. The total damage will be immense.

BIBLE HOUSE WILL BE SOLD

American House Will Probably Cause Publication of the Scriptures.

This step has been made necessary by the competition of the Oxford and International Bible companies in England. The property, which is worth nearly \$1,000,000, will be used for commercial purposes. The society has printed 67,396,366 copies of the bible in ninety-five different languages and dialects.

Boxers Are Punished.

Tien Tsai, Sept. 15.—The expedition under Gen. Dorward against the boxers, threatening the Tien Tsai region reached Tu Liu on the grand canal without opposition and the city was occupied without a shot being fired. Three columns converged there yesterday after a two days' march and found that the place had already surrendered to one officer and eight Bengal lancers. Gen. Dorward ordered the town burned after it had been thoroughly looted.

CORBETT SAYS HE HAS NOT ELOPED

**Reasons Why He Went to Europe
Known Only to His Wife
and Considine.**

London, Sept. 15.—[Special Cablegram]—Pugilist Corbett arrived here this afternoon. To your correspondent he said he was not anxious to talk about private affairs. If he did so he would be called a loafer and a thug. The reason he came to Europe was known only to his wife and Considine. He said: "The story that I eloped is untrue."

Corbett was attentive to Marguerite Corneille, an actress, whom he helped to her carriage directing it to one of the hotels, while he went to another. "See, if we were eloping we would not separate this way," he said. "She is a friend of Considine, and it is a shame to mix her up in this."

FIRM STAND IS URGED

Republicans Will Meet Imperialism Bugaboo Squarely—President May Speak Again.

Chicago, Ill., Sept. 15.—President McKinley is expected to address the people of the United States on the Philippine question again before election day. A letter has been received at republican national headquarters from Washington, stating that the president wishes the committee to see to it that the facts related in his letter of acceptance are emphasized as strongly as possible during the campaign.

Furthermore, it is stated on reliable authority that President McKinley will issue another address to the country bearing especially on his Philippine policy. This address may be in the shape of a letter to President Taft of the Philippine commission or of a proclamation to the inhabitants of the islands. At all events the message will clearly outline the administration's policy in east and will overthrow the imperialism bugaboo of the Bryanites, if, indeed, the "pa amount" issue contains the breath of life at that time.

TIE UP ON MONDAY WILL BE COMPLETE

**Strikers Are Orderly and All
Quiet in Coal Region
Today.**

SWEARING IN POLICE

Confidence of the Union Men Grows as Time for Strike Draws Near.

GOMPERS MAY TAKE A HAND

Scranton, Pa., Sept. 15.—[Special Telegram]—The tie up in the anthracite mines continues today and by Monday will be complete. A new issue in the situation is that of the washery or culm banks machinery for redemption which have been in use of late years. These immense banks furnish a large supply of coal for steam purposes. The miners claim they will sue in the courts as the refuse belongs to them, having dug it out. The mine owners laugh at the threat.

The strikers are orderly and everything is very quiet. The railroads are swearing in coal and iron police. Eighteen Collieries Closed.

Eighteen collieries are idle today and strike leaders declare not a wheel will turn Monday. Fourteen of the eighteen collieries closed are operated by the Lackawanna railroad company.

A number of the striking miners have signified their intention of leaving for the soft coal regions where it is claimed by mine leaders they can readily secure work. Organizer Dilcher has offered to find employment for them and it is generally believed here that the majority of unmarried men will accept the offer.

Closed Tight Monday

Hazleton, Pa., Sept. 14.—Nine out of ten of the collieries in the whole anthracite district, from Shamokin all the way to Pittstown, will be closed tight on Monday.

As the hour for the strike to begin officially draws near the confidence of the union men grows, while the most sanguine of the operators are beginning to doubt their assertions that only 20 of the men would quit.

A correspondent visited the principal owners within twenty miles of Hazleton today and all admitted that hopes of keeping any of the collieries open were vanishing. Now for the first time the operators make this admission.

Gompers to Address Miners

Shamokin, Pa., Sept. 15.—A telegram was received this afternoon by John Fahey, president of the Ninth District United Mine Workers of America, from Samuel Gompers, president of the American Federation of Labor, announcing that he will be here on Sunday to address a mass meeting, which the strike leaders expect will be attended by at least 10,000 workers. This is interpreted by the strikers to mean that the American Federation of Labor will assist them in their struggle.

FRENCH SURPRISED A BOER GARRISON

Number of Locomotives and

FIRST COLD SNAP OF THE SEASON

WEATHER MAN PREDICTS
FROST TOMORROW.

Both Overcoats and Shawls Will Be in Demand in a Short Time—Farmers Are Warned to Look Out for Garden Truck—Storm Coming From the West.

Janesville will experience the first genuine cold snap of the season Sunday. The weather man has sighted a frigid wave bearing down on the city from Canada. He has also discovered a severe wind and rain storm coming this way from the West, which is due to arrive here tonight, but it will not be a marker to the cold snap, which will be of such severity that heavy wraps will be in strong demand.

Overcoats that have basked under the protection and bawny order of moth balls, will have to be overhauled today and put in shape for winter. Professor Cox of the Chicago weather bureau advises this, because he declares that the coming cold wave will amply warrant the wearing of outer wraps. The young man with the shirt waist is also advised to seek retirement or to purchase a fur cape.

The coming cold wave is the first messenger of winter. It will remain in this section during the greater part of next week, and after that there is no telling how many frigid gusts will follow it.

For several days the cold wave has been loitering about in British North America. It loitered in Montreal for a brief season and then swept out around the summer resorts. After it had had caused a general exodus at these places it began making its way southward.

"Unless my calculations prove incorrect, the cold wave will arrive here Sunday afternoon or Monday morning," said Professor Cox last evening. "Will it bring ice? Well, it's hardly as bad as that, but we may have frost, and plenty of it. People would do well to get their overcoats and outer wraps in readiness for the wave, because it will be of an uncomfortably frigid character."

"We have all kinds of weather in sight for the next few days. From the Western states a severe storm is bearing down upon us and will reach here tomorrow afternoon. There will be heavy showers, plenty of thunder and strong winds from the south and southeast. I have not been able to determine yet whether these winds will prove dangerous on the lakes, and will not know until tomorrow."

"The cold snap which is due here some time during Sunday, or possibly not until Monday, is coming from British North America, which is now covered by a cold wave."

"As to the coming cold snap, I would advise the truck gardeners to keep a watchful eye on their crops, for the chances are ninety-nine to one that we will have frost."

JANESVILLE ART LEAGUE

Mrs. A. E. Tanberg Was Re-Elected President of the Society

There was a large attendance at the annual meeting of the Janesville Art League at the home of Mrs. A. E. Tanberg on South Main street yesterday afternoon. Most of the old officers of the League were re-elected for the ensuing year. Mrs. A. E. Tanberg, who has been president of the Art League since its organization, was re-elected president. By her untiring work in the interests of the organization it has grown to be one of the foremost art organizations in southern Wisconsin. Denver Woman Shamefully Treated.

London, Sept. 15.—The United States charge d'affaires, Henry White, protested at the foreign office against the treatment to which Mrs. Henry Rowe of Denver has been subjected by the police of West Gate-on-the-Sea. She was arrested accused of smuggling, and was searched at the local police station by men. Mrs. Rowe alleges she suffered indignities, was not allowed to communicate with friends, and was locked up over night. Her nephew, Mr. Gould, who is a prominent resident of West Gate-on-the-Sea, and who married a daughter of former Senator Rollins of New Hampshire, got Mrs. Rowe out of the police station and induced the United States embassy to protest. The police say it is a case of mistaken identity.

FROM THE FOREMOST MAKERS

Every day brings us shipments of something new in the ready-to-wear line. One of the firms is now in the New York market and the result is seen already in the showings of tailor made suits, walking skirts, silk waists and other line of garments for which our department is unquestioned headquarters. One purchase comprises a lot of about fifty strictly high class suits, mostly silk lined throughout. Regular values would be \$40 to \$60 but on sale \$25 to \$35 and no two alike. Other suits down to \$7.50 that are remarkable values and alterations free.

Early showings of fur scarfs, golf capes and wraps suitable for early fall wear. The regular line of fall coats and capes for women. Misses and children's will be along shortly, and as usual will be the leading and largest showing in southern Wisconsin. Archie Reid & Co.

PRIZE SHEEP AT MORGAN STOCK FARM

Prize winning sheep, as well as prize winning horses and cattle will be the class of stock which will make the big Morgan farm famous all over this country. It will be the aim of the proprietor and his superintendent, Charles Everett of this city, to get nothing but the best. The latter is in receipt of a letter from Prof. John A. Craig, professor of animal husbandry of the Iowa State Agricultural college at Ames, in which he notes the arrival at his farm near Rice Lake, Wis., of eleven head of Shropshire sheep, ten ewes and one buck, which he says were prize winners at the Royal show in England this year. These animals were purchased especially for the Morgan farm.

Prof. Craig, who was formerly a member of the faculty in the agricultural department of the Wisconsin state university, is considered one of the best authorities on sheep in the country and he says that the animals just purchased are as fine as money can buy and their breeding is the best. Mr. Everett says he will enter them at the International stock show which will be held in Chicago in December.

A carload of structural steel for the inside framework of the house has arrived so that work on the walls will at once be resumed. All the lifting is being done by an immense derrick operated by the steam road roller. Instead of using a team of horses the road roller is hitched to a pulley rope and walks off with it with ease.—Beloit News.

Having a Time.

A mother sent her small boy into the country and after a week of anxiety got the following letter: "I got here all right but forgot to write before. A faller and I went out in a boat and the boat tipped over and a man got me out. I was so full of water that I didn't know anything for a long time. The other boy has to be buried after they find him. His mother came and cried all the time. A horse kicked me over and I've got to have some money for fixin' my head. We are going to set a barn on fire tonight and I should smile if we don't have some bulky fun. I shall bring home a tame woodchuck if I can get him in my trunk."

Cleanest in America.

The Lackawanna Railroad is the cleanest railroad in America. Even though it cared little for the comfort of its passengers, which it does, it probably would burn hard coal, for the reason that it owns the most extensive anthracite coal mines in Pennsylvania, and it is cheaper for it to burn hard coal, which makes no smoke, than soft. At any rate, there is no smoke from its locomotives. It is built for the most part through the mountains where rock is the material easiest of access, and its road-bed for that reason is rock ballasted. There is therefore, no dust. These two things are of unusual interest to the traveler by the line, for the reason that on no other road in the United States is there stronger incentive to keep one's eyes upon the passing scene. It is said of this line truthfully that every mile is picturesque. It traverses the agricultural region of Western New York, the valley region of Central New York, the mountain region of Pennsylvania and New Jersey, and every mile offers a view that is beautiful, interesting and entrancing. In point of comfort its passengers are particularly fortunate, for, in addition to there being no smoke or dust, the cars are roomy and scrupulously clean. Sleeping cars, parlor cars and dining cars offer all the conveniences and comforts of modern travel. Homeseekers Excursions Via C. M. & St. P. R'y.

On July 3rd and 17th, August 7th and 21st, Sept. 4th and 18th, good for 21 days, at one fare plus two dollars for the round trip, to points west, south and southwest. For tickets and further information call at C. M. & St. P. R'y passenger depot.

A COMMON SAW.

"Under the Rose" Is Derived from Ancient Greek Mythology. In Greek mythology the rose was the symbol of silence, as it was said that Cupid, the son of Venus, gave the god of silence a golden rose as a bribe to conceal the amours of the goddess of love. It was, therefore, sculptured on the ceilings of banqueting halls and placed as a sign above the doors of questionable resorts. Guests at feasts were crowned with roses, to intimate that their conversations while in their cups were not to be repeated elsewhere. The phrase obtained currency in Greece after Pausanias, the admiral of the Greek fleet, plotted with Xerxes to betray the cause of the Greeks by surrendering the ships, the negotiations being conducted in a small banqueting hall, the roof of which was, as usual, covered with sculptured roses. The plot, however, was discovered and orders given for the arrest of the traitor. Pausanias endeavored to make his refuge in a temple which possessed the right of asylum. Unwilling to violate the sanctity of the place by forcibly removing him and still more unwilling to allow him to escape, his fellow citizens waited up every entrance and, by one account, left him to die of starvation; by another, killed him by unroofing the building and throwing down the tiles on his head.—Detroit Free Press.

Servant Poisons Children. New York, Sept. 15.—Bertha Chumko, a servant, 17 years old, was locked up, charged with poisoning three children of Louis Elkin, a wholesale paper manufacturer. The poisoned children are Louis, 5 years old; Arthur, 3, and Catharine, 3 years. Louis will die, it is thought. The girl broke a Dresden china lamp, costing \$180. Mrs. Elkin told her that she would have to pay for the lamp and refused to give her the week's pay due. The girl, it is alleged, threatened to "get even." At dinner roast chicken was served. When Louis had eaten a small piece he said his lips were burning. The boy fell back in his chair unconscious. The other children fainted after they had eaten some of the fowl. The servant fled. When arrested she denied the crime before she was accused.

Marshall (union); Attorney General, Herbert Ward (union).

WINE OF CARDUI

Woman Knows Woman.

ZURICH, KAN., Jan. 31.
I used Wine of Cardui for nervousness and weakness in the womb. After taking one bottle I was well again. I am a midwife and always recommend Wine of Cardui to my lady friends during pregnancy and after birth as a tonic. Every lady who takes it finds that it does even more than is claimed for it.
MRS. V. M. BOISVERT.

WINE OF CARDUI

Nobody knows woman like woman. Men go to medical colleges, study books and listen to lectures. They learn indirectly of the diseases of women, but they are men and can never fully understand the ailments, the sufferings, the agonies of mothers, wives and sisters. A woman knows. Mrs. Boisvert knows. She has passed through the trials and tribulations of her sex. She has been near by when her sisters suffered. She has seen them relieved and cured with Wine of Cardui. Is it any wonder she recommends it? Is it any wonder that thousands of other women recommend it? They know. They have actual experience to prompt them. They spread the tidings from mouth to mouth, telling how Wine of Cardui helps young girls, helps the weak of all ages, helps and cures all womanly ills.

AS M'KINLEY IS, LINCOLN WAS.

Milwaukee Sentinel.—In his assaults upon the present administration, Col. Bryan is pleased to use the name and words of Lincoln. It cannot be that a majority of his supporters will be pleased to have him. Unpleasant memories are certain to be revived. Col. Bryan has effected some radical changes in the democratic party creed, but an assumption of harmony with the policy and views of Abraham Lincoln is too great an innovation to prove popular with those partisans of more mature years, as old as Adlai Stevenson, for instance.

The wrongs of the Civil war period have been very generally forgiven North and South, but they have not been entirely forgotten by the participants. More years will have to pass before a candidate of the national democratic party can successfully quote Lincoln in the pronouncement of his party precepts especially with reference to questions pertinent to the preservation of free government, the menace of militarism or the abridgement of human freedom.

Of course, the democratic candidate for president in 1900 must have known in a general way that Lincoln was more savagely and wickedly maligned by democratic statesmen and time-serving republicans in the 60's than McKinley has been during the last two years of his administration. But he may have been ignorant of the fact that both the first and last presidents of the republic can fairly be assailed with the very same sort of reasoning and in almost identical language. Perhaps Col. Bryan's recognition of his desperate need of republican votes stimulated him to take the slight chance of getting them by offering scattered quotations from Lincoln's language as democratic arguments. He cannot thus, easily make Lincoln an authority for the democratic party on the subject of imperialism, because the democratic party has demonstrated by its platforms that it stands now exactly where it stood in 1864 and in that memorable year speaking not in Lincoln's language but of Lincoln's administration, this is what it said:

"Resolved, That the aim and the object of the democratic party is to preserve the Federal Union and the rights of the states unimpaired, and they hereby declare that they consider that the administrative usurpation of extraordinary and dangerous powers not granted by the constitution—the subdivision of the civil by military law in states not in insurrection, trial and sentence of American citizens in states where civil law exists in full force; the suppression of freedom of speech and of the press; the denial of the right of asylum; the open and avowed disregard of state rights; the employment of unusual test oaths; and the interference with and the denial of the right of the people to bear arms in their defense is calculated to prevent a restoration of the Union and the perpetuation of a government deriving its just powers from the consent of the governed."

That is rather more concisely drawn than the plank of the platform of 1900, but it is the same in point and purpose, and principal of misrepresentation of the administration policy. So far as the official democratic party utterances are concerned, as McKinley is, so Lincoln was.

OUT OF THE BUREAU DRAWER.

So far as known William Waldorf Astor is the only American imperialist, and he is not an American.

General William Ludlow of the army is in Berlin studying the German military system. This is only another "convincing proof" that the republic is on the verge of imperialism.

The democratic workers think that it is very pretty to receive pictures of Mr. Bryan oiling the farm wagon, but they would rather know just how Mr. Jones looks greasing the machine.

Mr. Bryan should cede the sovereignty of his farm at Lincoln, Neb., to Spain or France. The land was acquired by the United States without the "consent of the governed" by another democrat, Thomas Jefferson. How Mr. Bryan can consent to live in Nebraska, when this circumstance is considered, is unexplainable.

The fact that Mr. Bryan detected a thief at one of the many meetings in the west, is being given by the democratic press as a reason why the Nebraskan should be elected. This theory being accepted, it is suggested that Adlai Stevenson be dropped from the Bryan ticket, and the name of W. A. Pinkerton substituted.

The democrats are staggering as usual under a multiplicity of issues that do not fit all parts of the country. They dare not talk free silver in the east, they dare not press anti-expansion in the west, they fear to dwell on free trade in the manufacturing districts, and the "consent of the governed" is an expression non grata in the south.

The pessimistic predictions of the prophet of calamity, so freely proclaimed in 1896, have been disproved by the experiences of the past two years. His foresight was bad. This year his prophecies appeal to history for confirmation, but the facts of history show that his hindsight is no better than his foresight.

By actual count fifty four of that "army of commercial travelers thrown out of employment by the trusts" attended a drummer's "mass meeting" in St. Louis. It afterward turned out that seven of the whole number had lost their positions by the reorganization of companies. Not a bad showing for a city of 600,000 people in which perhaps 1,000 drummers live.

PROVE ALL THINGS.

This Command is Easy to Fulfill in Janesville.

To win a wager an English Marquis stood on London bridge and offered for an hour British sovereigns (\$5) for five shillings (\$1.25). He could not find a customer. There are several good reasons why the ordinary mortal could not be induced to buy, but no reason can be given why Janesville people will not accept the following convincing proof about Doan's Kidney Pills. Read this:

Mr. Thos. Pratt of 281 South Main St. says: "I doctored off and on for forty years, attempting to rid myself of backache, which came on by spells, very painful when at their height and even when somewhat allayed, the dull aching was sure to manifest itself. If I overtaxed myself, caught cold or did any work which brought a strain on the muscles of the back. Often I have been so lame and sore that there were days I was confined to my room almost helpless, certainly unable to get up or down. Like a great many other people in Janesville I procured Doan's Kidney Pills at the People's Drug Co.'s store, led to do so by the peculiar advertisement which riveted my attention. After taking a thorough course of the remedy I was able to go to the quarry and sling an eighteen pound hammer without showing any signs of a recurrence. If I am subjected to future attacks I know what remedy to employ."

For sale by all dealers. Price, 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S.

Remember the name Doan's and take no other.

Common sense use of "Orangeine" prevents and cures nearly all human ills.

DR. PIERCE'S Favorite Prescription

"I am so grateful to you for your advice," says Mrs. Sidney B. Oakes, of Whitwell, Pittsylvania Co., Va. "When I commenced your medicines I had been treated by different doctors for three months or more, but would only receive partial relief for a short while and then would be worse than before. Was confined to my bed most of the time. At the time I commenced your treatment my left side was completely paralyzed. Had no desire to eat anything; bowels costive all the time. Nervous were all unstrung, so I could not bear the least noise. I also suffered from diseased ovaries and female weakness. But thanks to my Maker and you, after following your advice, I am able to do all my washing, sewing and house work in general. I haven't had a spasm in two months. Left off medicines about one month ago. Didn't think it necessary to continue them longer. I have taken about seven bottles of Dr. Pierce's Favorite Prescription, seven of the 'Golden Medical Discovery,' and two vials of 'Pleasant Pellets.' I heartily recommend those medicines to all suffering as I was."

VERDICT IN FAVOR OF THE PLAINTIFF

Andrew Anderson's Suit Against Martin For a Redue of Wages For Working On a Farm.

Andrew Anderson, a shoemaker residing in this city, brought an action in Justice Earle's Court against Martin Anderson, who resides on a farm two miles north of the city, to recover wages claimed to be due his son, Alfred Anderson, a minor.

The plaintiff alleged that Martin Anderson, hired the boy Alfred to work on the farm, the first three months at \$12 per month and the balance at \$15 per month.

Alfred Anderson, commenced work in February, 1898, and worked for Martin Anderson, until February, 1900, a period of about two years. When he came to settle with Martin Anderson he claimed a balance due him of \$195. Martin Anderson, disputed the claim saying there was not that much due the young man. They could not come to an agreement as to the amount due and the matter was brought into court.

A jury consisting of A. C. Munger, A. Smith H. W. Perrigo and W. F. Carle was summoned, and after listening to the evidence brought in a verdict of \$15.13 in favor of the plaintiff.

The defendant showed that payments had been made the plaintiff from time to time which reduced the amount claimed by the plaintiff to the amount of the verdict. John J. Cunningham appeared for the plaintiff and H. L. Marfield for the defendant.

CASE OF ROSINA WARD

An Injunction Restraining Judge Sale from Proceeding Further in the Matter.

The case against Rosina Ward of Brodhead, that was commenced in Judge Sale's court, to settle the question of Mrs. Ward's sanity, was brought to a sudden stop this morning.

Mahoney & Ryan, attorneys for Mrs. Ward, secured an injunction restraining Judge Sale from proceeding further with the case, and restraining the petitioner from interfering with Mrs. Ward, or proceeding further against her.

The injunction was taken out before Edwin F. Carpenter as court commissioner. The petition alleges conspiracy on the part of the petitioner, and a suit for damages is also commenced against him. This is an unusual proceeding, and the question will now have to be settled by Judge Dunwiddie.

Mrs. Tolstol Not a Socialist.

In his early youth Count Tolstol determined never to marry, and on the strength of this resolution sold the family mansion, which was torn down and removed, except one wing, which he reserved for his bachelor quarters. At the age of 32 Tolstol changed his mind, and married. His wife, once a celebrated beauty, belongs to a noble family of German origin. She was only 16 when married, and has borne the count sixteen children, nine of whom are living. Left almost to her own resources in domestic and practical affairs, she has risen to the occasion, and manages the estates and the count's private business matters with a firm hand. Mrs. Tolstol does not share the socialistic beliefs of her talented husband, and but for her shrewd and firm management the estate would long ago have been impoverished. Their house for many years has been full of nurses, governesses and preceptors, as well as children.

Victoria Likes Military Music.

An English journal says that Queen Victoria is fond of the stirring strains of music of a good military band. She gave one of many recent evidences of this liking when, not long since, the band of the First Light Guards was playing in the Grand Quadrangle at Windsor Castle. Her Majesty was wheeled out from her apartments, and, after listening for a considerable time with evident enjoyment, she sent for the bandmaster to say how pleased she was with his band.

GOT A TOUCH OF ELECTRIC CURRENT

John O'Berg In Charge of the Norcross Lighting Plant At Fulton Knocked Down.

John O'Berg, who has charge of the Norcross lighting plant at Fulton, got in touch with the current a few nights ago and suffered an experience he will remember. At the time he was alone in the plant and in passing by one of the dynamos he put his hand on the machine, while at the same time his shoulder came in contact with a lightning arrester attached to the wall, which completed the circuit for an instant and a portion of the 4,000 volts which the machine generates, passed across his body.

The shock, of course, felled him to the floor, and how long he lay there he does not know, but after a time he came to, and in a half dazed condition managed to reach his home, when the family secured another man to complete the run.

The inside of his hand was badly burned, and John says the last he remembers was in seeing a big ball of fire come out of the back of his hand, and a large blister there seems to bear witness that he was right about it. John has handled electricity for a number of years, but this is the first time he ever ran up against a good strong current, nor does he care to repeat the experience either—Edgerton Reporter.

CARRIER BOYS ADD FIFTY CENTS EACH

The immediate needs of Galveston for food have been supplied by the prompt action of sympathizing residents, of neighboring Texas cities. The city is sure also of plentiful food supplies in the future from the gifts that are being hurried to it to the extent of 800 car loads on special trains from all parts of the United States. These will be transported to the city from the mainland as fast as barges and tugs can do the work.

A million and a half of dollars, it is estimated, will be necessary to help the inhabitants in their work of rebuilding the city, and from present indications this sum will soon be available for them.

Apart from money and provisions the citizens have great needs however, which are demanding immediate attention. They need disinfectants and drugs and forage for animals as rapidly as it can be sent to them.

The Gazette Galveston fund is not growing as fast as was hoped. Two subscriptions received today were from Frank and Amanda Ehringer, newspaper carrier boys, and they were proud to add their mite. The list is as follows:

J. M. Bostwick & Sons, \$25
Gazette Printing Co., \$5
Colvin Baking Co., \$5
Whitehead & Matheson, \$2
Mrs. R. J. Knott, \$1
H. A. Mosser, \$1

The Chicago, Milwaukee & St. Paul R'y will sell regular Homeseekers' excursion tickets to all points in South Dakota, at one fare plus \$2 for the round trip, on September 18 and October 2, 1900. This will enable parties to visit the Corn Belt Exposition to be held in Mitchell, S. D. September 26 to October 4, 1900, inclusive. This exposition is held to demonstrate the great agricultural resources, wealth and possibilities of this thriving state. The exposition is held in a gorgeously decorated corn palace which for beauty can hardly be excelled anywhere by a building of a temporary nature.

There are thousands of acres of cheap lands left in South Dakota that will, under the present conditions in that state, rapidly increase in price and the holding of this corn palace with its many attractions, that both amuse and instruct, should be an opportunity that all land and investment seekers should embrace.

MOB LYNCHES THREE NEGROES

Masked Men String Up Desperados Accused of Murder.

Memphis, Tenn., Sept. 15.—A masked mob of between sixty and 100 men broke into the jail at Tunica, Miss., and took out two negroes, whom the strung up to a tree within 100 yards of the jail. The dead negroes are Frank Brown, who shot Frank Chesire, a wealthy planter, at Oak Landing, six months ago; David Moore, who shot Dan Rosewell, ten days ago, and William Brown, who with confederates shot and cut to death a young white man at State Levee one month previous. The lynching is the result of the intense feeling against desperate negroes which has been brewing in the neighborhood of Tunica for some months.

BRIDE AND GROOM GET A RECEPTION

Large Party of Friends Called Upon Mr. and Mrs. Allie McIntosh Last Evening.

Mr. Allie McIntosh and bride were treated to a reception of the liveliest kind last night. The young couple took possession of their house on Terrace street yesterday and hoped that they would be left in peace for a day or two. Their hopes were badly shattered last night, when about 1 o'clock one hundred or more of the groom's friends with the Imperial band marched up to the house and took possession of the lawn. After three selections by the band, Mr. McIntosh accompanied by his wife appeared on the porch and the bride was formally introduced to the assemblage. The groom told the crowd that "He had nothing in spirits to offer" but passed around a couple of boxes of cigars. Congratulations to the young couple were extended by the party after which they left the bride and groom to enjoy the comforts of home in peace and quietness.

SECOND GALE NOW RAGES IN TEXAS

Wind Blowing 45 Miles an Hour on Gulf Coast—Militia and Sheriffs Clash.

New Orleans, La., Sept. 15.—The wind has been blowing fifty miles an hour all night and weather conditions indicate that another tropical hurricane is brewing in the gulf. The barometer is not falling as rapidly as it did before the great gale last week, but the storm center is perhaps quite a distance out. In other respects the conditions are the same as last Thursday and Friday, the atmosphere heavy and low-lying clouds scudding swiftly from horizon to horizon.

Local forecasters say that these tropical gales frequently follow one another and they call attention to the three storms in the autumn of 1893, when the Florida keys were swept for nearly a fortnight.

A warning has come from the United States weather bureau at Washington, for ships not to go to sea. The wires connecting with Port Eads have blown away. Just before they fell the wind was blowing fifty miles an hour.

It is believed by the weather bureau that the storm is much more serious near Beaumont, Texas, than anywhere else, and it is feared that great damage is being done. The Louisville & Nashville road, east of New Orleans, along the gulf coast, is covered with water blown in from the open sea.

CLASH OCCURS AGAIN.

Militia at Galveston Arrest Deputy Sheriffs Wearing Badges.

Galveston, Texas, Sept. 15.—A conflict of authority due to a misunderstanding precipitated a temporary disorganization of the policing of the city yesterday.

It seems that when Gen. Scurry, adjutant-general of the Texas volunteer guard, arrived in the city Tuesday night with about 200 militia from Houston, he conferred with the chief of police as to the plans for guarding property, protecting the lives of citizens and preserving law and order.

An order was issued by the chief of police to the effect that the soldiers should arrest all persons found carrying arms unless they showed a written order signed by the chief of police or mayor giving them permission to go armed. It so happened that Sheriff Thomas had appointed and sworn in 160 special deputy sheriffs. These deputies were supplied with a ribboned badge of authority, but were not given any written or printed commission.

Deputies Arrested. Acting under the order issued by the chief of police, Major Hunt McCaleb of Galveston, who was appointed aid to Gen. Scurry, issued an order to the militia to arrest all persons carrying arms without the proper authority. The result was that about fifty citizens wearing deputy sheriff badges were arrested by the soldiers and taken to police headquarters. The soldiers had no way of knowing by what authority the men were acting with these badges and would listen to no excuses.

Gen. Scurry and Sheriff Thomas, hearing of the wholesale arrests, called at police headquarters and consulted with Acting Chief Amundsen. Chief Amundsen referred Gen. Scurry to Mayor Jones. Then Gen. Scurry and Sheriff Thomas held a conference at the city hall. These two officers soon arrived at an understanding and an agreement was decided upon to the effect that all persons deputized as deputy sheriffs and all persons appointed as special officers shall be permitted to carry arms and pass in and out of the guard lines.

KNOWN DEAD NUMBERS 3,701.

No Longer Any Doubt That the Total Will Reach 5,000.

Houston, Texas, Sept. 15.—The Post-day prints a list of 2,701 names of the Galveston dead, compiled from various sources, but believed to be accurate.

Galveston, Sept. 14.—The work of disposing of the dead continues. Owing to the condition of the bodies and now, the plan of taking them to a was abandoned, except in a few instances, where it was found advisable to consign them to watery graves. About 300 bodies were reported to have been buried or cremated and there are several hundred bodies buried beneath the wreckage still. Thirty-two sand mounds marked with all boards, attract attention on the beach near Twenty-sixth street, and the story of where about seventy bodies were laid to rest. In the extreme western part of the city about fifty bodies were cremated with wreckage of the homes of the unfortunate victims.

Sheriff Thomas has deputized fifty members of the Screwmen's association as deputy sheriffs. They are assigned to the duties of cleaning streets of debris. The men were assigned to the different wards and trusted to enforce law and order, and at the same time to look after the work of cleaning the city. They were ordered to put all able-bodied men to work, and to report all those who refused to assist in the labor.

City Health Officer Wilkinson issued orders to all druggists to furnish medicine to the poor who were known to be in need and to send the bill to the health department.

Tolstol Is Seriously Ill. Paris, Sept. 15.—A dispatch from St. Petersburg says that Count Tolstol is seriously ill.

CHANGED CIRCUMSTANCES.

A Man Once a Millionaire Now Lives in a Barn.

Robert A. Johnston, sole survivor of a firm of famous Broadway dry goods merchants, has lived for years a hermit in what remains of his beautiful home at Riverdale, on the Hudson. This solitary man, who twelve years ago was worth \$2,000,000, has made his home in a barn since last winter, and even that he owes to the kindness of the new owner, a Wall street concern. John Johnston came to New York from County Armagh, Ireland, many years ago. He opened a small dry goods business, which soon grew to a great success. He brought his brothers Charles and Robert from Ireland and made them his partners under the name of J. & C. Johnston. Their great store at Broadway, Twenty-second street and Fifth avenue, was one of the finest in New York. Charles died in 1880 and John in 1887. Robert, the youngest brother, inherited all the property. His wealth was estimated at more than \$2,000,000. The suspension of the old house was announced in 1888. The millions accumulated in half a century began to vanish as if by magic. No one knows how Robert A. Johnston lost his money. Within twelve years his great fortune has melted away. Soon after John's death Robert paid \$60,000 for a dozen acres of land along Cuthbert lane and there built a magnificent stone mansion. There he lived in stately seclusion. The house was filled with beautiful furniture, exquisite paintings, statuary and bric-a-brac. But the former millionaire was growing poorer day by day. He could not keep his servants. Forrest house, which once belonged to him, was destroyed by fire in 1899. It passed out of his possession months before. Johnston filed a petition in bankruptcy on Feb. 6, 1900, showing no assets and liabilities of \$55,000, of which \$40,000 were deficiency judgments and the rest chiefly for groceries, clothing, servants' wages, etc.

Buffalo Strike Spreads.

Buffalo, Sept. 15.—The strike of butchers which originated in the packing house of the Jacob Dold Packing company has spread to the establishment of Sahlem Brothers, Michael Danahay, Christian Klinick, Klinick Brothers and the Buffalo Packing company. The aggregate number of men out is variously estimated at between 800 and 1,200. A large meeting of the strikers was held last night and it was intimated at its conclusion that the engineers, coopers, carpenters and other employees of the packing houses might go out today as an act of sympathy for the butchers. The cause of the strike is said to be refusal of the Dold company to discharge two men who failed to pay their dues to the union.

Five Injured in Collision.

South Bend, Ind., Sept. 15.—Five men, all living at Kankakee, Ill., were injured in a head-end collision on the Indiana, Illinois & Iowa railway six miles south of South Bend. They are: Christian Dimeo, Joseph Oslinski, Martin Alberts, Henry Schultz, William Toppe. The men were brought to this city and taken to a hospital. They were on a south-bound work train which crashed into a south-bound freight.

Lover Stabs Himself.

Rise of the Jewish Scrap and "Seconds" Buyer.

The "ghetto," the home of a mixed mass of humanity, presents a remarkable and unique phase of New York shoe selling, says the New York Tribune. Petty shoemakers visit the numerous city shoe factories daily and buy up scraps and "seconds" of all kinds of leather, which they take to their homes, and, after being inspected and assorted by the entire family, it is finally made into pieced backs and wedge heels in black, tan, patent leather and numerous odd combinations, every inch of leather being utilized. A steady worker turns out at least twenty-four pairs of these shoes, working from 7 a. m. until late in the night. In the meantime the thrifty wife puts the finished product into a clothes basket and, taking a stool, stations herself at the prominent corner of Hester and Essex streets, right in the heart of the "ghetto." Here activity reigns, thousands upon thousands of wage-earners swarm through the streets; the vendors loudly cry their wares to attract the attention of bargain seekers. After a day of bantering and talking the woman has disposed of her shoes and goes home with an empty basket and a pocketful of small change. After many weeks of this routine the economical shoemaker has saved enough to realize an ambition and he buys a push cart—a two-

wheeled affair much like the familiar fruitman's cart—and with shoes bought at fire sales he pushes boldly into some crowded thoroughfare and lines up against the curb. A tempting price, loudly proclaimed, serves to dispose of the stock as often as he can replenish the same. Under these circumstances the meager capital has increased sufficiently to enable him to open a small shoe store in Hester street and to employ an assistant. He searches wholesale shoe houses for odds and ends, damaged and mismatched shoes, and picks up numerous lots for a fraction of their value. He has now assumed the dignity of a merchant, and has gained the confidence of his countrymen. Encouraged by his success and confident of his ability, he buys in larger lots and begins to supply other push cart dealers. The demand eventually assumes greater proportions; he attends auction sales, which are very frequent in New York, and realizes profits from every venture. In the course of a few years his environments become too small, he disposes of his push cart and rents a basement in Bayard street, among the east side shoe jobbers.

High Priced Porcelain Tables.

A pair of Louis XV Sevres porcelain table candlesticks from the art treasures of Sir Charles Welby sold in London recently for \$12,075. This is probably the highest price ever paid for articles of the kind.
